“Unite for Quality Education” is our campaign to ensure that universal, free quality education remains at the top of the political agenda at national and international level.

The purpose is to demand that inter-governmental agencies, governments and public education authorities everywhere put in place the three essential elements of a quality education:

- **universal and free access to quality teachers;**
- **modern teaching tools and resources; and**
- **supportive, safe and secure environments for teaching and learning.**

On the 4<sup>th</sup> of October, we are launching a year of action, an initiative for quality education around the world, that will culminate in a World Day of Action in October 2014.

We invite everybody who cares about the education of our children to join with us in seeking a ‘Better Quality Education for a Better World’.
