## 1.1.8.

Education & Employment / Education Policy:

### **Draft Resolution: Involvement of Teacher Labour Groups in Educational Decision-making**

**Proposed by:** CTF-FCE/Canada  
**Original language:** English

WHEREAS strong teacher organizations with both union and professional focuses have provided leadership in keeping attention on high quality classroom practices focused on maximizing individual student potential, and

WHEREAS some groups involved in international development and cooperation, including large foundations and organizations with financial imperium, value schools based on the market values of capitalism over individual student needs, and

WHEREAS quality local public education may not be the primary interest of either corporate developers or local officials, and

WHEREAS the voice of teachers is best represented by the properly constituted independent teacher labour organizations in each country,

BE IT RESOLVED that in all of its activities with governmental and nongovernmental groups EI stress the importance of involving organized teacher labour groups in planning and implementing educational decisions at all levels.
