Subject: Response from Czech and Moravian Trade Union of Workers in Education to the consultation on the draft By-Laws of European Regional Structure

Czech and Moravian Trade Union of Workers in Education proposes that:

- The new structure will be called ETUCE. This is in recognition of the fact that ETUCE has already established identity with member organisations, with NGOs and the European Union.
- The leader of the ETUCE and ETUCE Secretariat should be referred to as ETUCE General Secretary as it is currently. We do not believe that the proposed title ETUCE Regional Director will be obvious in European Union context.
- The ETUCE General Secretary should be selected by a democratic body which has been elected by the ETUCE member organisations.
- ETUCE should have autonomy in matters with respect to decisions which are made concerning European issues. ETUCE must possess financial autonomy likewise.

Best regards,

František Dobšík

President of Czech and Moravian Trade Union of Workers in Education
